Climate Change and Health - Innovation Award

Established in 2017 by two McMaster University medical school alumni, and their family, the Climate Change and Health - Innovation Award is intended to recognize students who have achieved excellence in creating an innovative solution that positively impacts climate change and health. The Award has been developed to encourage interdisciplinary teamwork and collaboration, as well as foster the kind of diverse and inclusive leadership that is required to address complex sustainability challenges in our society.

Award Value: \$5,000 in total, consisting of a top prize of \$3,000 and a second prize of \$2,000 (to be evenly divided equally among all group members who have been actively involved in the project throughout its duration)

Award Requirements

Project selection will be based on merit of the project in achieving the vision of the Award as stated above. Successful applicants will be selected by an interdisciplinary evaluation committee of McMaster faculty members.

The Award is open to students who have completed an experiential learning project within a program offered through McMaster's Academic Sustainability Programs (ASP) Office. Students are encouraged to apply if they satisfy the requirements outlined below.

Applicants must have completed an experiential learning project as part of their participation in a program offered through McMaster's Academic Sustainability Program (ASP) Office. ASP Office programs include:

- The Sustainable Future Program – Sustain 1S03, 2IS3, 2S03, 2SD3, 2SS3, 3S03, 3SS3, and 4S06
- The Sustainability Internship Program
- The GUCEL Program

Applicants must clearly articulate how their project has had a positive impact on climate change and health.

- Climate change may include any one or more major sources of emission and/or sequestration.
- Health may be related to human and societal health or well-being in the broadest sense.

Recipients must have been part of an interdisciplinary group of students from at least two different faculties.

Note that while individual students may apply for the award, such as individual student interns, they are still required to have collaborated with other students from alternative disciplines on their project. It is important to note that the award money will only be given to students who have received academic credit or recognition from the Academic Sustainability program noted above.

Applicants must obtain an endorsement signature from at least one individual who has provided supervision for the duration of the project. A supervisor may include the following:

- Community Engagement Coordinator, Nathan Butterworth

[In accordance with the Freedom of Information and Protection of Privacy Act and McMaster University's Statement on the Collection of Personal Information and the Protection of Privacy, where notice is given, the University is permitted to publish an individual's name, Academic Group, plan, and award information. McMaster University publishes the names of recipients of scholarships listed in the Calendar, in the University's Convocation program and other award publications. Further information can be found in the General Academic Regulations section of the Calendar.](#)

- Academic Supervisor
- Community Project Champion
- Course Instructor
- Course Teaching Assistant

Instructions

- All documents must be submitted together
- Be sure to use a header on each page of your application, which includes the name and student number of one team member
- Completed applications submitted to the Academic Sustainability Programs (ASP) Office via email (asp@mcmaster.ca) no later than 5:00 P.M. on Thursday, August 1, 2024.
- Questions, concerns, and submission to be emailed to Nathan Butterworth at butterw@mcmaster.ca
- Incomplete and/or late packages will not be reviewed

Climate Change and Health - Innovation Award Application Form

Project Title _____

Project Duration

Start Date (Month, Year):

End Date (Month, Year):

Associated Course or Program (select one)

- Sustain 1S03
- Sustain 2IS3
- Sustain 2S03
- Sustain 2SD3
- Sustain 2SS3
- Sustain 3S03
- Sustain 3SS3
- Sustain 4S06
